Where I Create Value	Signature Capabilities
Enterprise Learning Strategy Translate business priorities into scalable learning architectures, roadmaps, and measurable outcomes. AI Workforce Readiness & Technology Adoption Design responsible AI-readiness strategies and prepare leaders and employees to adopt emerging technology confidently and productively. Leadership Enablement Equip managers with the tools, practice, and reinforcement required to lead behavior change. Learning Operations Connect platforms, content, communications, analytics, and stakeholder governance into a repeatable system.	• Performance consulting • Role-based learning pathways • Change communications • LMS / LXP strategy • Responsible AI adoption • Vendor and partner management • Capability architecture • Manager enablement • Stakeholder governance • Learning analytics • Facilitation and coaching • Continuous improvement

Representative Enterprise Impact

Technology Adoption Across A Large, Distributed Education Enterprise

Supported district-wide learning, communications, performance support, coaching, and stakeholder engagement for device-management and digital-workflow adoption within a public-school enterprise serving 600+ schools. Delivered direct professional learning across 35+ schools and enabled 1,000+ educators and stakeholders, contributing to a 40% increase in adoption, a 25% improvement in knowledge retention, and a 25% increase in LMS engagement.

Leadership Brand	Target Challenges	Portfolio
Learning Strategy + AI Workforce Readiness + Leadership Enablement + Technology Adoption	Workforce readiness, adoption, manager capability, learning scale, measurable performance	Case studies, AI learning assets, strategic frameworks, leadership resources

Evidence Note: Selected outcomes reflect program and platform data associated with Andrea's enterprise learning and technology-enablement work.
