PROFESSIONAL EXPERIENCE

Senior Engagement Specialist | Apple Device Management Administrator

2023 - 2026

Chicago Public Schools - Information Technology Services | Chicago, IL

Enterprise learning, technology enablement, and change leader supporting workforce capability and digital transformation across one of the nation's largest public-sector organizations.

- Led end-to-end learning programs aligned to enterprise technology adoption, leadership capability, workforce readiness, and organizational priorities across 600+ locations.
- Partnered with executive leaders, HR, IT, administrators, and subject-matter experts to diagnose capability gaps, establish priorities, and translate business needs into scalable learning solutions.
- Designed, coordinated, and facilitated 150+ instructor-led, virtual, blended, and cohort-based learning experiences for 1,000+ educators, administrators, and technology professionals.
- Built onboarding and upskilling pathways, eLearning, microlearning, video tutorials, facilitator guides, job aids, and just-in-time performance support for diverse learner needs.
- Advanced leadership and manager development through learning experiences focused on readiness, communication, accountability, coaching, and effective technology leadership.
- Increased enterprise technology adoption by approximately 40% and improved knowledge retention and learning-platform engagement by approximately 25% through targeted learning, reinforcement, and continuous improvement.
- Managed concurrent initiatives through project plans, milestone tracking, stakeholder communications, implementation toolkits, risk management, and executive progress reporting.
- Coordinated with Apple, Jamf, and external technology and content partners to align program delivery, learning resources, implementation support, and stakeholder expectations.
- Introduced practical AI applications into learning through generative-AI-assisted content development, responsible-AI resources, and avatar-led microlearning prototypes.

Computer Science Teacher | Technology Coordinator

2012 - 2023

Chicago Public Schools - A.N. Pritzker Elementary School | Chicago, IL

Served as the organization's learning and technology partner, strengthening leadership capability, employee readiness, digital adoption, and instructional performance.

- Consulted with principals, assistant principals, educators, and district teams to diagnose performance needs and design targeted leadership, professional-skills, and technology learning solutions.

Computer Science Teacher | Technology Coordinator (continued)

- Designed and facilitated workshops, coaching cycles, professional learning communities, onboarding experiences, and blended development programs for employees and school leaders.
- Presented at a district leadership-development conference for principals and assistant principals, translating technology and learning strategy into practical leadership actions.
- Developed self-paced digital content, instructional videos, implementation guides, and resource libraries that supported just-in-time learning and sustained adoption.
- Led schoolwide learning and change initiatives, coordinating communications, schedules, stakeholder expectations, technology partners, and post-launch reinforcement.
- Used participant feedback, performance data, and technology-utilization trends to evaluate effectiveness and continuously improve learning experiences.

Technology Teacher | Technology Integration Specialist

2010 - 2012

Hoover-Schrum Memorial School District 157 | Calumet City, IL

- Designed technology-enabled learning experiences and training materials that made complex tools accessible to diverse audiences.
- Partnered with school leadership to support digital-learning initiatives, employee capability development, and organizational technology adoption.

ADDITIONAL LEADERSHIP & CONSULTING EXPERIENCE

Technology Training Consultant

2016 - 2020

B2B Strategic Solutions (2019-2020) | William Everett Group (2016)

- Delivered adult technology training, client enablement, and adoption support while translating technical concepts into practical user guidance.

Registration Team Lead

January 2022 - Present

Living Word Christian Center

- Lead onboarding, scheduling, coaching, and operational coordination for a volunteer team supporting weekly programming for 200-250 children and families.
- Develop standardized procedures, training resources, and onboarding documentation to strengthen consistency, accountability, and service quality.
