PROFESSIONAL EXPERIENCE

Senior Engagement Specialist | Apple Device Management Administrator

2023 - April 2026

Chicago Public Schools - Information Technology Services | Chicago, IL

Enterprise learning, technology enablement, and change leader supporting workforce capability across a complex, distributed public-sector organization.

- Supported district-wide technology adoption and workforce readiness across 600+ schools while directly delivering professional learning and implementation support across 35+ schools.
- Led learning, communications, performance-support, coaching, and stakeholder-engagement initiatives that enabled more than 1,000 educators, administrators, and technology stakeholders.
- Partnered with IT teams, school leaders, subject-matter experts, and vendors to diagnose capability gaps, establish priorities, and translate operational needs into scalable learning solutions.
- Designed and delivered instructor-led, virtual, blended, eLearning, microlearning, video, facilitator-guide, job-aid, resource-hub, and just-in-time performance-support solutions for diverse audiences.
- Contributed to approximately 40% higher technology adoption and approximately 25% improvements in knowledge retention and learning-platform engagement through targeted learning, reinforcement, coaching, and continuous improvement.
- Managed concurrent initiatives through project plans, milestone tracking, stakeholder communications, implementation toolkits, risk management, and progress reporting.
- Coordinated with Apple, Jamf, and external technology partners to align learning resources, implementation support, program delivery, and stakeholder expectations.

Computer Science Teacher | Technology Coordinator

2012 - 2023

Chicago Public Schools - A.N. Pritzker Elementary School | Chicago, IL

Learning program and digital-adoption lead supporting leadership capability, educator readiness, and instructional performance.

- Consulted with principals, assistant principals, educators, and district teams to diagnose performance needs and design targeted leadership, professional-skills, and technology-learning solutions.
- Designed and facilitated workshops, coaching cycles, professional learning communities, onboarding experiences, and blended development programs for educators and school leaders.
- Presented at a district leadership-development conference for principals and assistant principals, translating technology and learning strategy into practical leadership actions.
- Developed self-paced digital content, instructional videos, implementation guides, and resource libraries supporting just-in-time learning and sustained adoption.
- Led schoolwide learning and change initiatives and used participant feedback, performance data, and technology-utilization trends to improve learning experiences.

PROFESSIONAL EXPERIENCE - CONTINUED

Technology Teacher | Technology Integration Specialist

2010 - 2012

Hoover-Schrum Memorial School District 157 | Calumet City, IL

- Designed technology-enabled learning experiences and training materials that made complex tools accessible to diverse audiences.
- Partnered with school leadership to support digital-learning initiatives, professional capability development, and organizational technology adoption.

ADDITIONAL LEADERSHIP & CONSULTING EXPERIENCE

Technology Training Consultant

2016 - 2020

B2B Strategic Solutions (2019-2020) | William Everett Group (2016) | Chicago, IL

- Delivered adult technology training, client enablement, and adoption support while translating technical concepts into practical user guidance.

Registration Team Lead

Jan 2022 - Present

Living Word Christian Center | Forest Park, IL

- Lead onboarding, scheduling, coaching, and operational coordination for a volunteer team supporting weekly programming for 200-250 children and families.
- Develop standardized procedures, training resources, and onboarding documentation that strengthen consistency, accountability, and service quality.
